

Rastech
IT SOLUTIONS

COMPANY **PROFILE**

“The number one benefit of information technology is that it empowers people to do what they want to do. It lets people be creative. It lets people be productive. It lets people learn things they didn't think they could learn before, and so in a sense, it is all about potential.”

What new **Technology** does is create new opportunities to do a job that customers want done.”

WELCOME.

Rastech is an IT solutions company providing all kinds of IT support and services. With 12+ years of proven excellence, Rastech has earned the trust of its clients. Rastech's services are distributed all over the UAE, and our team of energetic professionals is obligated to meet the needs of our clients in the first place. A team that always looks forward made Rastech an always-updated team towards each and every advancement in the field of information technology. Our services include POS solutions, surveillance systems, biometric solutions, business solutions, hardware and software services, workstation setup, office IT setup, annual maintenance contracts, industrial printer rental, online ordering apps, and much more. Rastech is always keen to implement the finest technology with a well-structured architecture, which makes the clients able to use the services in the long run without worrying about advancements in technology. With a customer-oriented approach, our team has been showing amazing professionalism.

OUR MISSION

“Elevating Businesses through Technology”

At Rastech, our mission is to empower businesses and individuals by delivering innovative and reliable IT solutions. We are dedicated to providing cutting-edge technology that not only meets the current demands of the digital landscape but also anticipates future trends. Our commitment is to be a trusted partner, delivering exceptional value and driving success for our clients through the strategic application of technology.

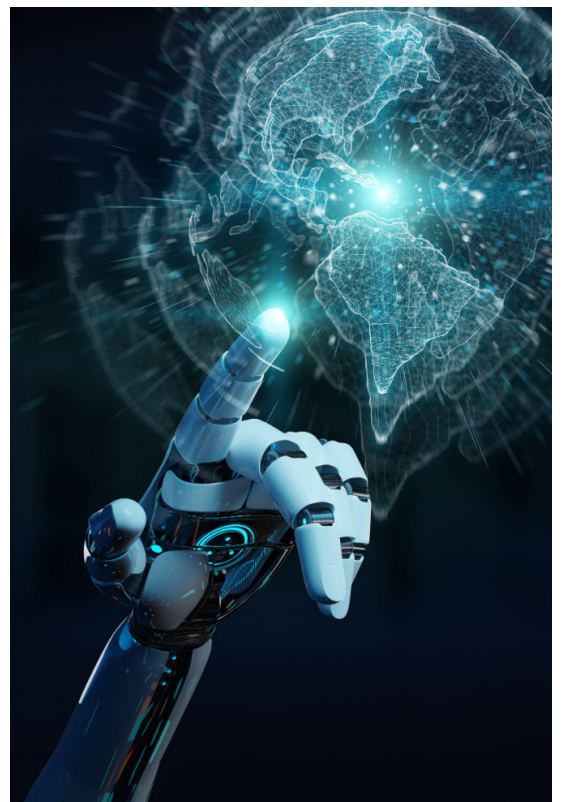

Information technology empowers individuals to pursue their passions and fosters creativity, productivity, and learning, thereby promoting potential and fostering personal growth.

OUR VISION

“Connecting Vision with Technological Transformation”

Our vision at Rastech is to be a trailblazer in the IT industry, setting new standards for excellence and innovation. We aspire to create a world where technology seamlessly integrates into every facet of business and life, simplifying complexities and enhancing efficiency. By fostering a culture of continuous learning and collaboration, we aim to be at the forefront of emerging technologies, ensuring our clients are always ahead of the curve. Through sustainable growth and a focus on ethical business practices, we envision Rastech as the go-to IT solution provider globally, recognized for our unwavering commitment to customer success and technological excellence.

OUR SERVICES

If we continue to develop our technology without wisdom or prudence, our servant may prove to be our executioner. What new technology does is create new opportunities to do a job that customers want done. It is only when they go wrong that machines remind you how powerful they are.

IT SOLUTIONS

Make your business run smoothly with Rastech's advanced POS solutions. We provide both hardware and software to support your business and make it stress-free during rush hours. Reliable hardware and easy-to-use, but efficient, software are always what we deliver to our clients.

CCTV SURVEILLANCE

Securing the business environment is one important thing a businessman always thinks about to have a stress-free business. Rastech's surveillance system implementation fulfills all the concerns the clients are bothered about. Inspecting the environment individually and planning and implementing the most effective surveillance parameters to ensure each and every loop-hole is covered.

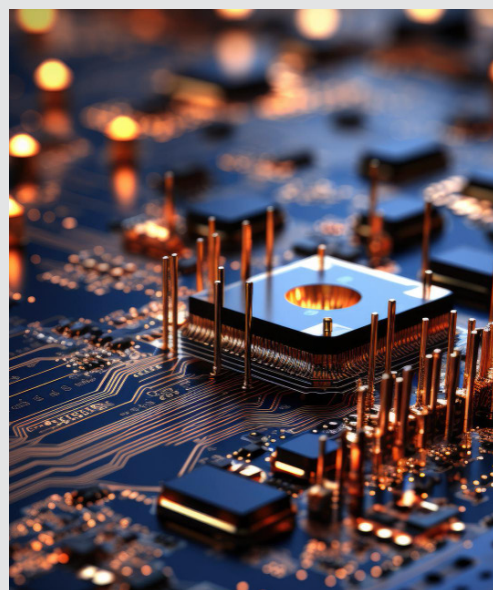

BIOMETRIC & PABX SOLUTIONS

The most advanced biometric attendance systems and door lock access systems are very important to keep your business secure. Rastech provides all kinds of biometric and access control systems with the latest and most advanced security protocols.

HARDWARE & SOFTWARE

Whatever problems your computers and other IT equipment have, Rastech has covered them all. Our team of experts will diagnose and solve all the problems related to your hardware or software. Even if your computer is running slowly, our team can upgrade your PC to the most modern specs in no time. We also provide all kinds of computers and IT goods, brand new and used.

NETWORKING & CABLING

Rastech handles all kinds of computer networking needs. We provide stable and high-speed wireless networking for your home or business. We are always keen to implement the most efficient network architecture by examining the needs of clients, avoiding data loss, and providing high-speed data transfer.

AMC's

We undertake an annual maintenance contract for your business and ventures. Our services are always available on call, and a team of professionals will always be ready to support your IT needs once you are subscribed to an AMC.

BUSINESS SOLUTIONS

Rastech has introduced a few brand new business solution tools, like mobile apps and web-based apps to order products online. So if your business is planning to sell products online, we have a wide range of services we can offer to make your business flourish online. Contact us for more details or a demo.

INDUSTRIAL PRINTERS

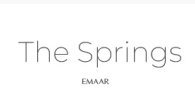

Rentals are available for industrial printers for your office. If you don't want to spend a lot of money on office equipment, you can subscribe to our industrial printer rental plans. Low rentals, and don't worry about maintenance and support. Our team is one call away.

HOME & OFFICE AUTOMATION

Rastech is a reputed, fast-growing company providing automation solutions for all needs. Their products can be integrated with any kind of technology to create a seamless home automation system. The company provides a range of products and solutions for lighting and shading that can be automated to suit various budget needs.
